

Project Number: IST-2001-33234
Project Acronym: PEPITO
Title: PEer-to-Peer Implementation and TheOry
First Progress Report on Distributed Algorithms
Due date: project month 12
Delivery Date: 2003-04-10
Responsible Partner: KTH
Participating Partners: SICS, UCL, EPFL, INRIA

Deliverable no:	D2.7
Title:	First Progress Report on Distributed Algorithms
Workpackage no:	WP2
Due date:	12
Delivery date:	16

Short Description

This deliverable presents a summary of the work done during the first 12 months in workpackage 2: Distributed Algorithms and Services. The report is intended to provide major achievements with respect to the planned objectives. Consequently, it gives insight about the work that needs to be done in the future. The report briefly recalls the objectives of workpackage 2, gives the motivations of the work done, and summarizes the results obtained during the first 12 months. The report also shows the relationship between workpackage 2 and the other workpackages of the PEPITO project. To give context for the work done so far in workpackage 2, a brief survey of the state-of-the-art of P2P systems is given and some research issues are highlighted. Finally, the report gives an elaborated summary of each of the major results.
