Teknisk utgångspunkt...

The image is a collage of various software interfaces. On the left is a PDA screen showing a calendar and a message. In the center and right are several windows from the Swing Manager application, including Mp3Player, SviewManager, ServiceManager, SOAPPublisher, and ServiceDesigner. A 'Recommendations' window is also visible, showing a list of items and a 'recept' (recipe) window with a list of ingredients. At the bottom left is a 'GeoNotes' window with a list of notes and a search bar.
